THE PROBLEM

- ★ The sales department calls to notify you that one of your company's biggest accounts have cancelled a large, specially packed order...
- ★ Quality Control informs you that a quantity of product recently produced isn't meeting specifications for your customer...
- ★ The warehouse calls to report a forklift driver knocked over multiple pallets of merchandise. Damage is significant enough that you won't be able to sell it to the regular trade...

What are you suppose to do?

THE SOLUTION

Star Foods is the Solution

For over 25 years, we have enabled hundreds of manufacturers and distributors to rid themselves of troubled merchandise. Our database of end user customers allow us to focus on the specific needs and/or restrictions manufacturers and distributors place on merchandise. As a result, we are able to quickly and efficiently move their merchandise.

OUR WORK POLICY

Our Service is Simple

Show us your available inventory and supply us with all pertinent information such as: case pack, packing or expiration dates, quantity, gross weight, pallet tie/high and let us do the rest.

We will conduct market research – and with our vast experience – can determine a relative value for your merchandise where it is desired for resale.

You are our customer – and we will accommodate and work within your tight schedule. That means your company will avoid multiple deliveries and accounts payable. You save time because we have a large fleet of contract carriers to pick up your merchandise, even on short notice. We buy from large nationwide corporations, mid-sized regional companies and small local businesses.

Some companies prefer to donate for tax purposes; but being charitable, unfortunately, won't cover the cost of the raw materials or labor costs. There's only one solution.
